Prior to installing the ipd gauge pod, apply the edge trim to the bottom lip of the pod. Remove the red adhesive covering and then apply the trim to the pod around the perimeter. Be sure to take enough time to properly seat the trim against the pod and allow the adhesive to hold it in place.

To allow for tight radius turns, specifically at the rear of the pod, miter cut the trim as shown and continue around the curve. Additionally you can use the included two side tape to affix the bottom of the edge trim to your dashboard.
